👋 Hi, I'm Andrei

I am a developer, designer and composer with an appreciation for user-friendliness, a keen eye for aesthetics, and a deep love for anything to do with the web, software, languages, culture, music or art.

🛠️ Skillset

HTML · CSS · Tailwind CSS · JavaScript · TypeScript · Vue.JS

Nuxt.JS · Alpine.js · jQuery · Node.JS · Python · APIs · Bash

GitBash · Cygwin · VS Code · Sublime Text · GitHub · Outlook · Word

PowerPoint · Excel · Windows · Linux/UNIX · Photoshop · Vegas Pro

Writing · Music Composition · Music Theory · Electric Guitar · Reaper

FL Studio · Mixing · Mastering · User Interfaces (UI) · User Experience (UX)

Design · Information Technology (IT) · Technical Support · Translation

Teamwork · Cooperation · Communication · Decision Making

Problem Solving · Time Management

🌐 Languages

English — A1

I was born and raised in Romania, but given that I was also taught English alongside the national language while growing up, I am now capable of speaking both of them fluently, and am currently challenging myself to learn Japanese due to my profound interest in Asian languages and the people who speak them.

Romanian — A1

Am fost născut și crescut în România, dar am fost învățat încă din copilărie să vorbesc nu numai limba națională ci și Engleza, așadar acum sunt capabil de a conversa fluent în ambele, iar în prezent studiez limba Japoneză deoarece sunt profund interesat de către limbile Asiatice și oamenii care le vorbesc.

Japanese — B1 — JLPT N3

ルーマニアで生まれ育ってきた私はその国語だけでなく、同時に英語をも両親に教わったおかげで両方とも流暢に話せる様になっており、そして現在はアジアの諸語やその話者達に対して深い興味を持つため、日本語を習得するよう頑張っています。

☑ Experience

Oxford Business College   2022 — Present

Working as a Student Support and Welfare Officer at Oxford Business College has had me as the primary point of contact for general enquiries from the student body and staff, which has presented me with the opportunity of taking the lead on welfare, safeguarding, as well as various other matters concerning the campuses I was stationed at. Furthermore, I have had opportunities to develop various software that integrates with the current infrastructure of the college.

In order to optimize my workflow and ensure quality results, I have developed several JavaScript and Node.JS scripts and programs that take advantage of various APIs and datasets, and extend or otherwise improve the functionality of the systems in use by the college. A few examples include (however are not limited to) a browser-based userscript that allows multi-querying the database of students, an automation tool that enhances and makes the student card issuing process more accessible, and a parcel tracking-style website which allowed students to see the status of their cards in real time, by using the ID numbers associated with themselves and said cards.

This post has required me to comply with confidentiality and General Data Protection Regulations (GDPR) standards and laws, and to manage student welfare processes and other kinds of information by using the Student Information System (SIS) efficiently and proactively.

In addition to the above, it has been required of me to keep up to date with policies, issues, and legislations regarding personal, pastoral, as well as academic matters, and to develop and maintain close operational collaboration with other departments.

I have had to work with colleagues across the company in order to ensure that students are fully and adequately supported at all times—having any barriers to learning promptly and effectively dealt with—and to identify and escalate important or urgent matters to the appropriate personnel via triage skills.

NABBA Consulting   2021 — 2022

NABBA was a local web consulting firm from my hometown. I was hired on a fixed-term contract to work on and maintain their official website remotely.

While working for them, I had to utilize my front-end skills in order to redesign and refactor certain outdated aspects of their website such as the user interface.

I was also tasked with designing and producing promotional or marketing material for the company, which I was able to do in Photoshop.

🎓 Education

Economics College of Arad   2016 — 2020

Having more than 130 years of tradition behind its name, the Economics College of Arad is a prestigious and instructional educational institution, whose outstanding results have been recognized at a European level in 2013. Over the years, entire generations of the young have been trained in various fields, with graduates having acquired the education necessary in order to adapt to the ever-changing demands of the labour market. The school's educational strategy encourages the youth to harness their creative spirit, and to be open to conversation and responsibility for their future careers.

It is here, at this college, that I have had the pleasure of studying accountancy, the Romanian and English languages and literature written in them, geography, mathematics, physics, and history, as well as receiving my diploma in the field of economics, accountancy and finance.
